BACHILLERATO DE INVESTIGACIÓN

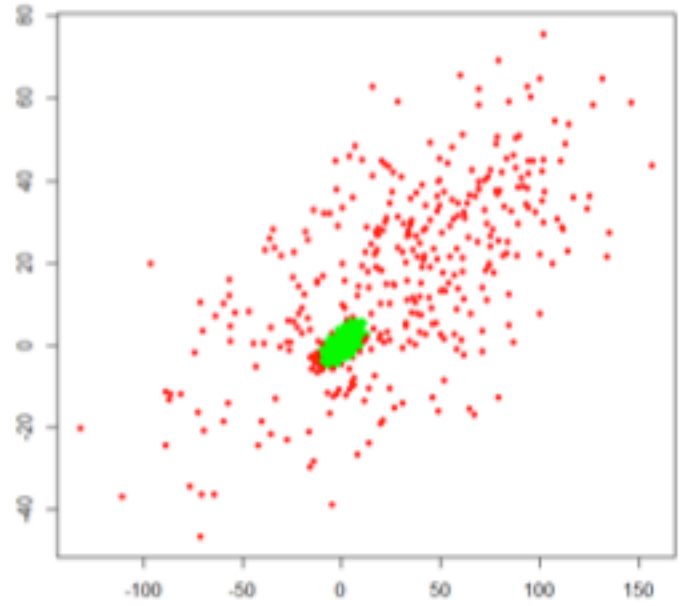
DESCRIPCIÓN DE LOS PROYECTOS

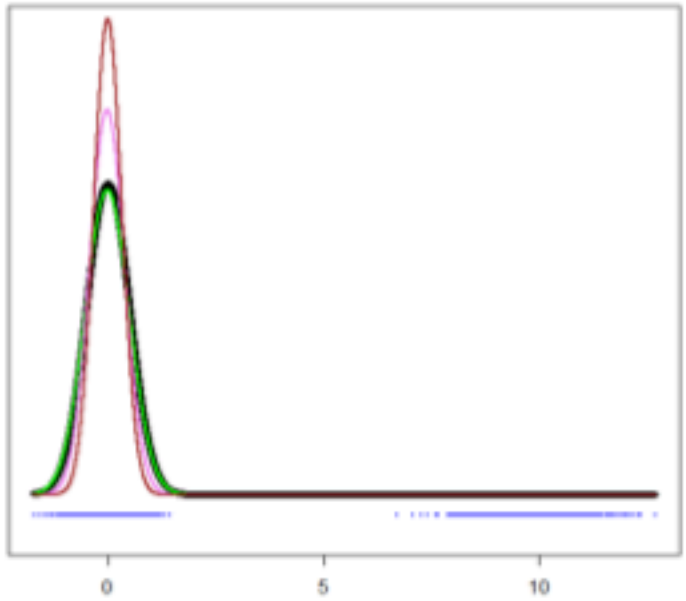
NANOPARTÍCULAS DE ORO Y PLATA

Síntesis y caracterización de nanopartículas de Oro y Plata

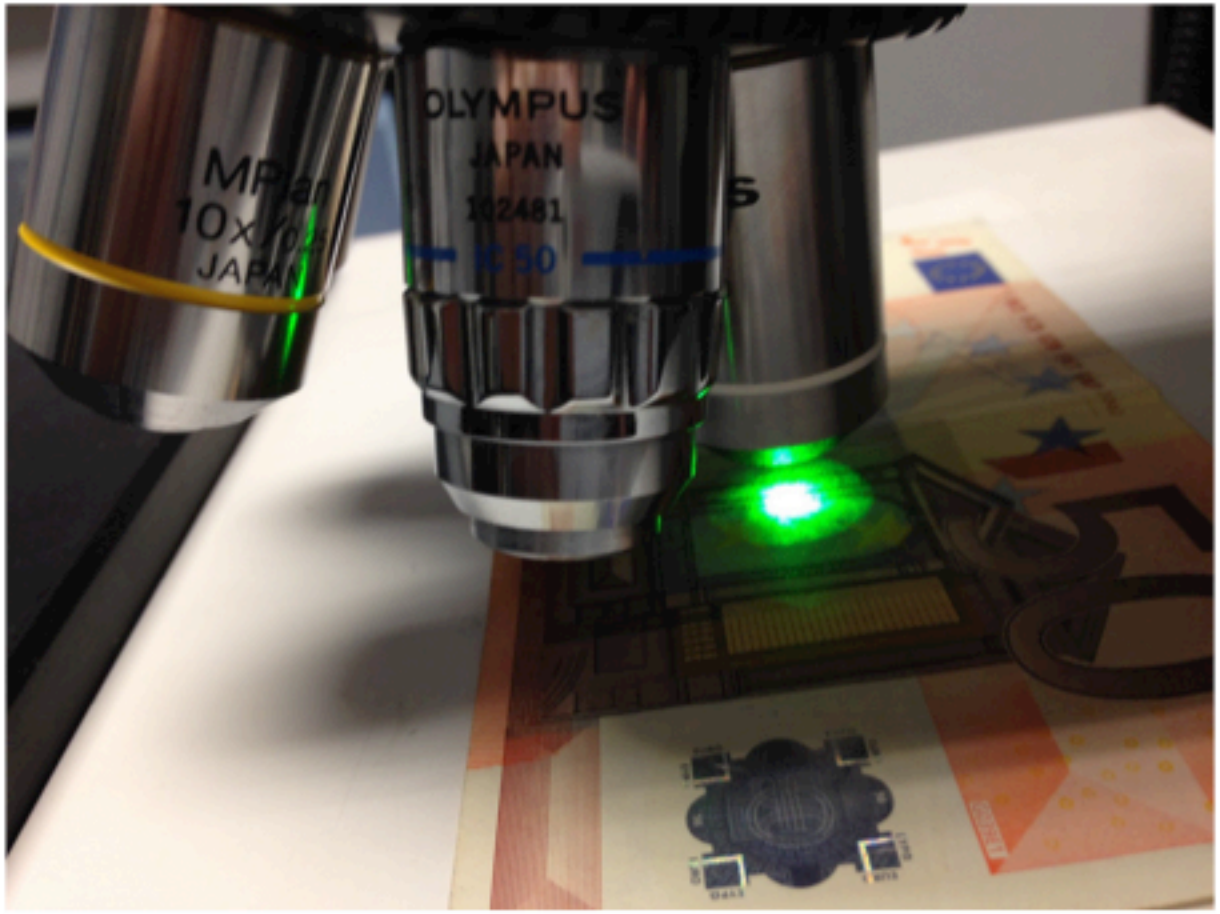
Sandra Calvo 2ºA

BUSQUEDA DE INDIVIDUOS ATÍPICOS EN DATOS BIOMÉDICOS





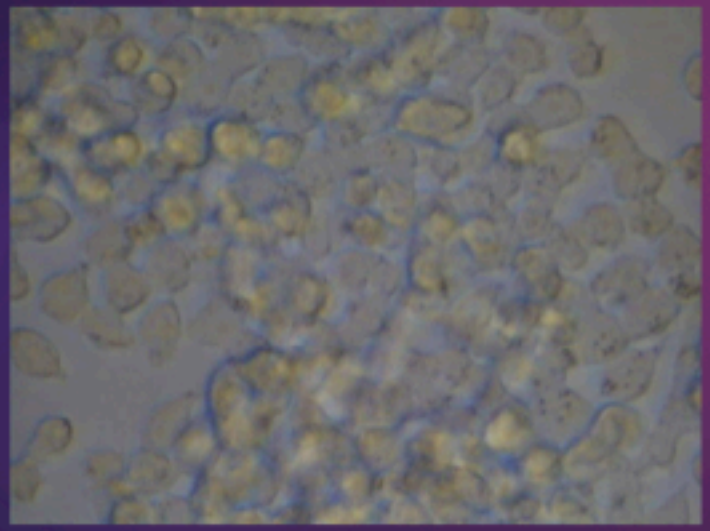
Comparativa de billetes de curso legal y de sus posibles falsificaciones

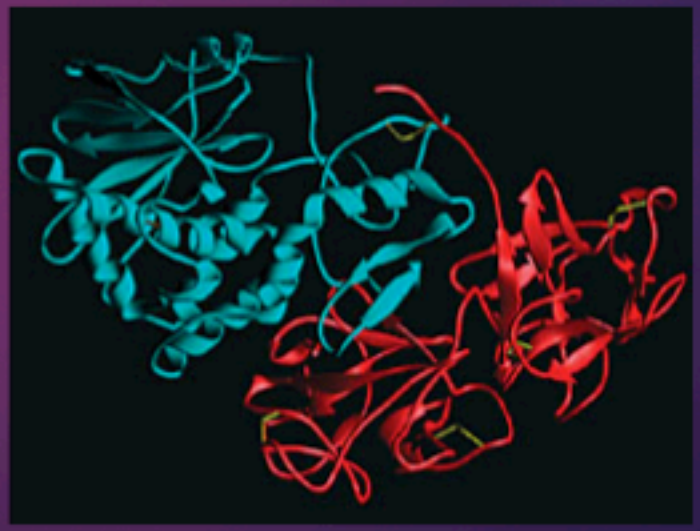


Beatriz López García

Efecto de las toxinas vegetales ricina y nigrina sobre cultivos celulares.

Sara Rubio



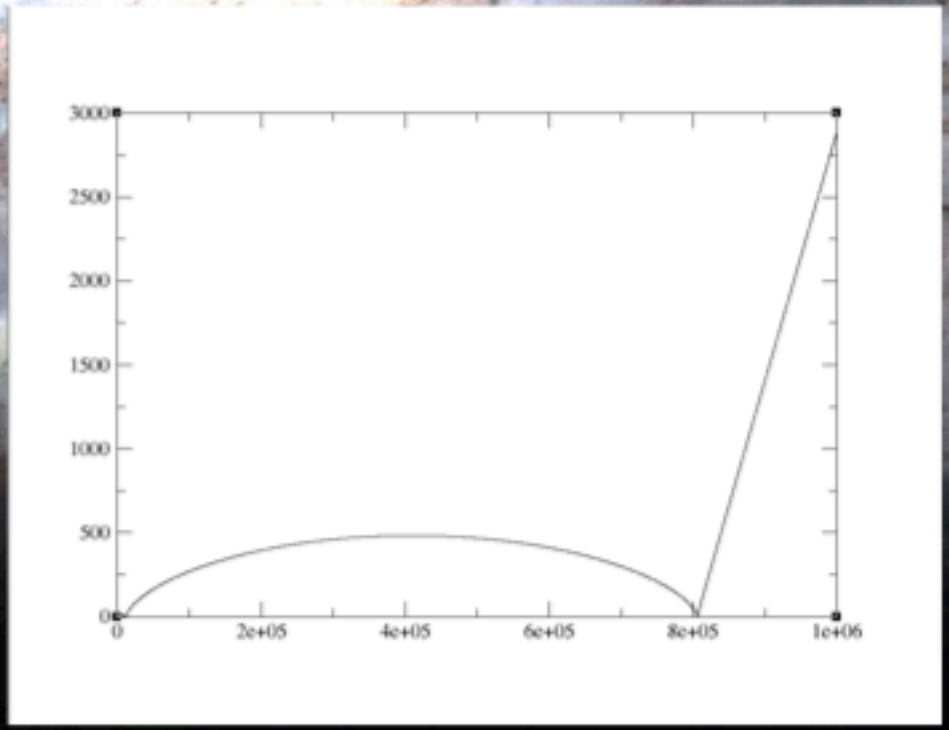


Síntesis de principios activos: de la estructura al laboratorio.

María Gil Castellanos 2ºA

nálisis físico-químico de aguas

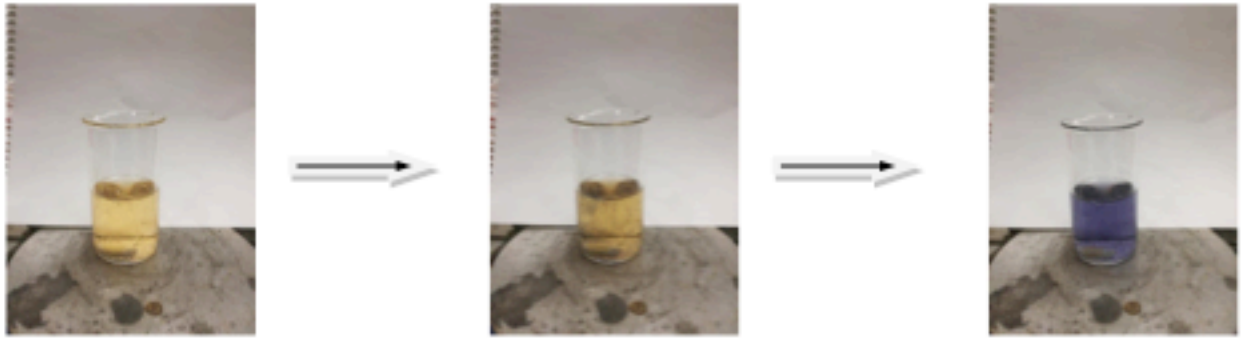
imulaciones dinámicas de movimientos de cuerpos celestes



Jaime Calderillo Blanco

SÍNTEIS DE CARBONILOS DE METALES DE TRANSICIÓN POR RADIACIÓN MICROONDAS

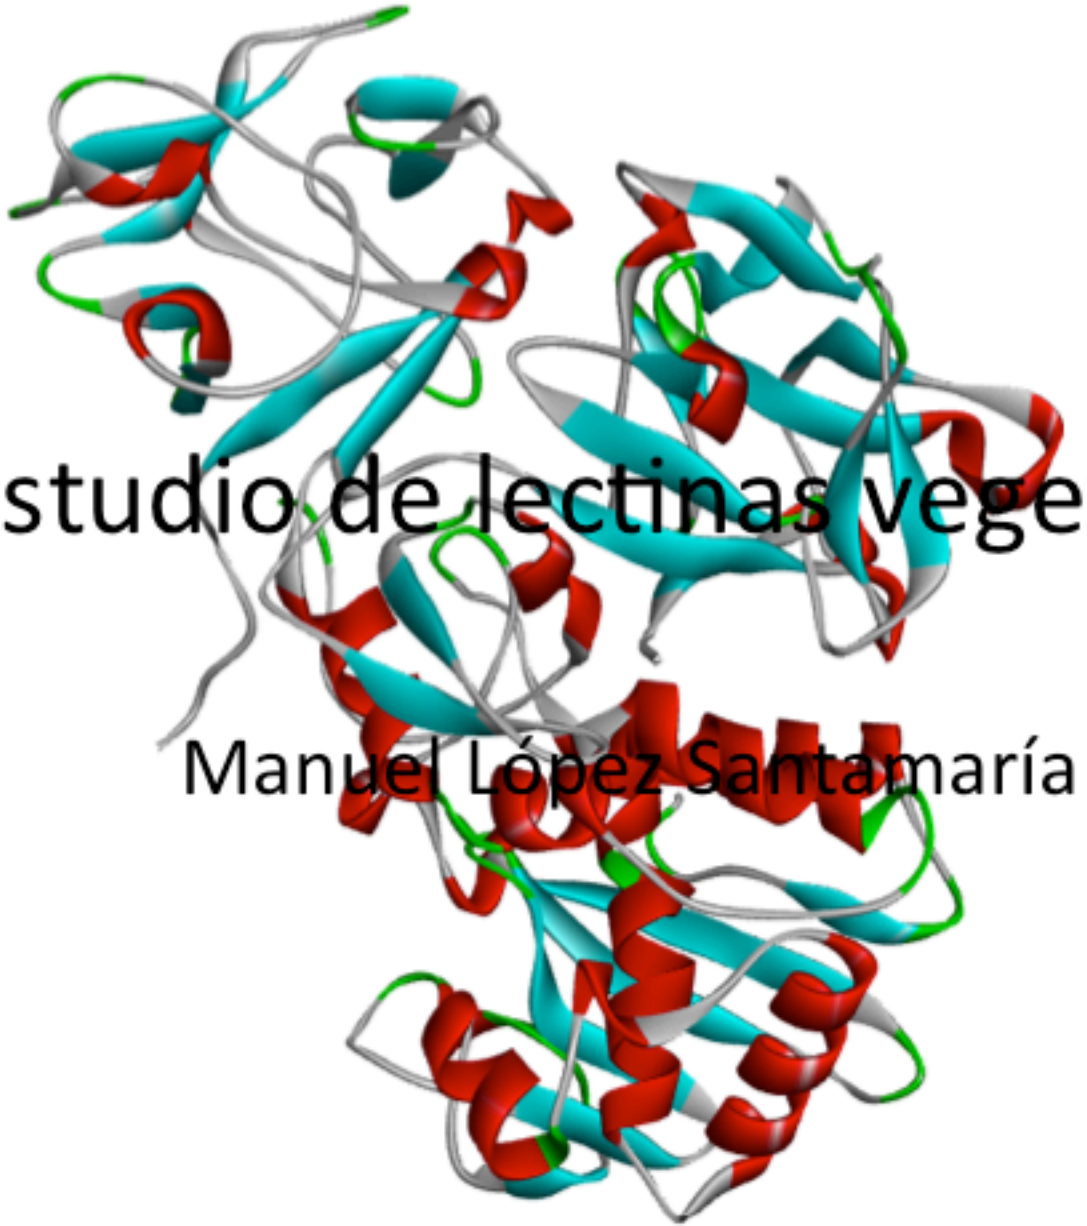
Beatriz Lázaro



Estudio de reacciones oscilantes con reactivos caseros

María Manzano Santos 2ºA

11:40-12:00

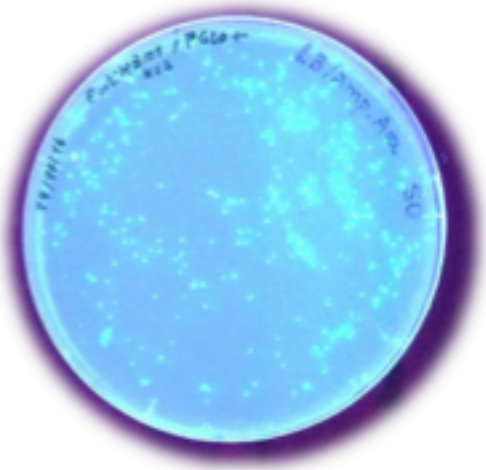


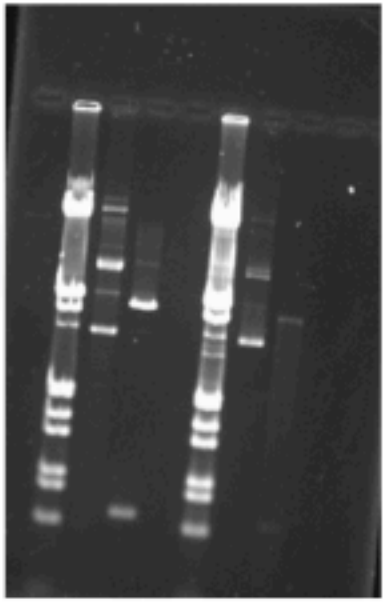
Estudio de lectinas vegetales

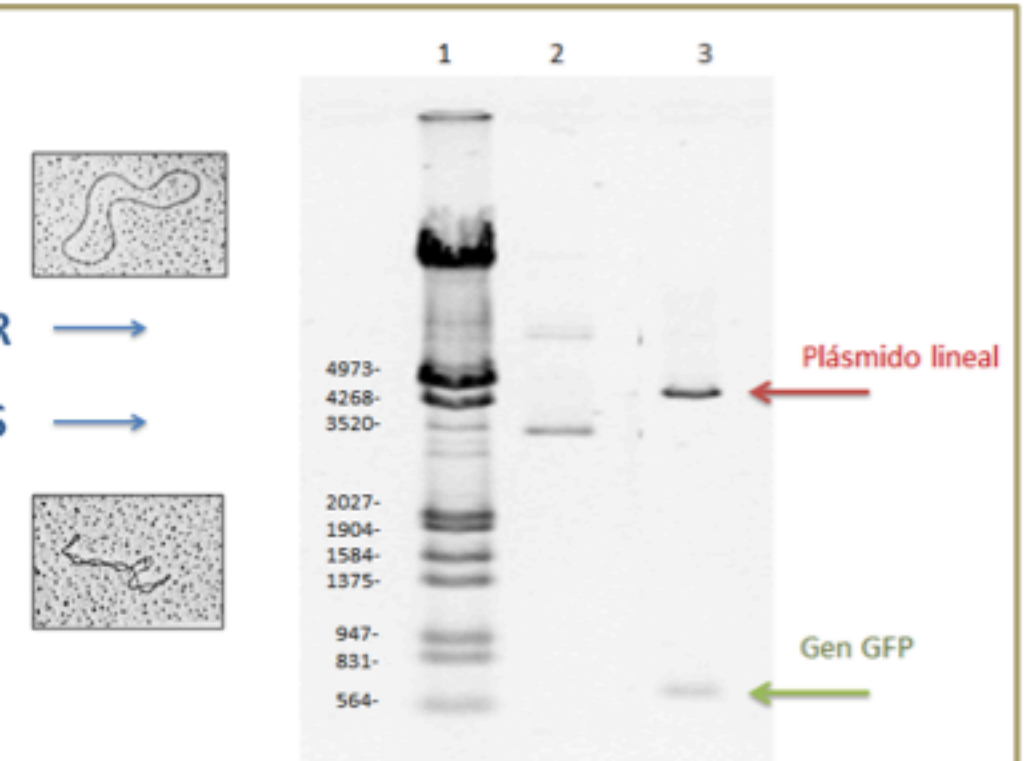
Manuel López Santamaría

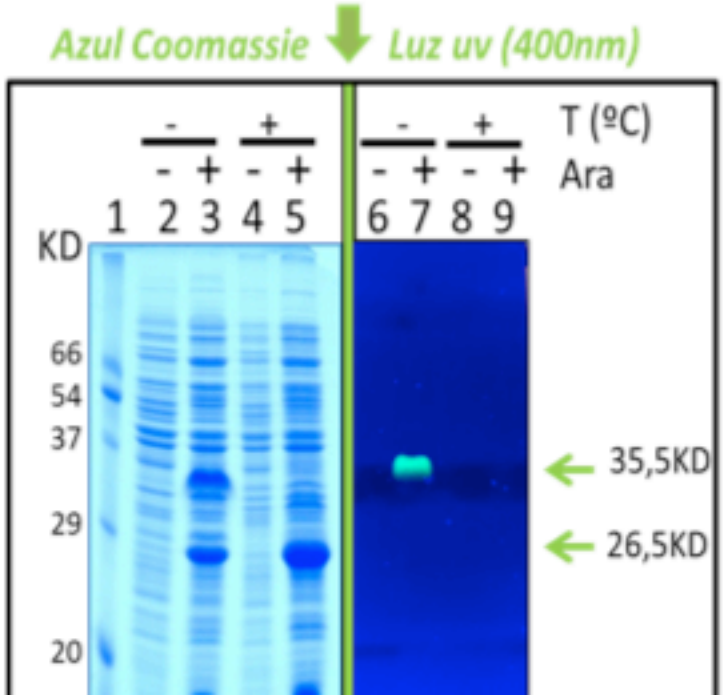
ransformación genética de scherichia Coli con el gen de la roteína GFP (Green Fluorescent rotein)

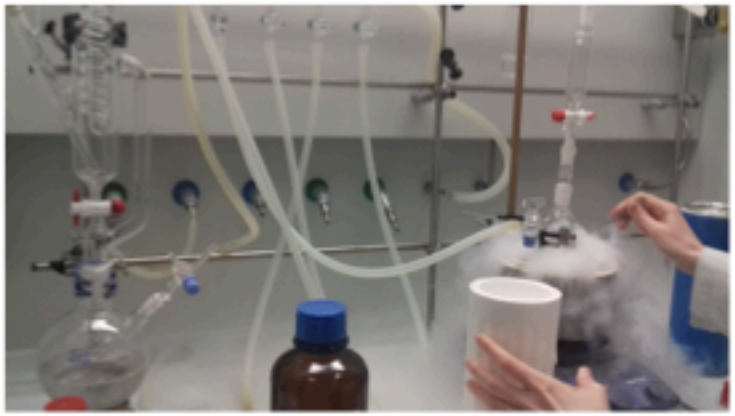
utora: Alexandra Rico Gil

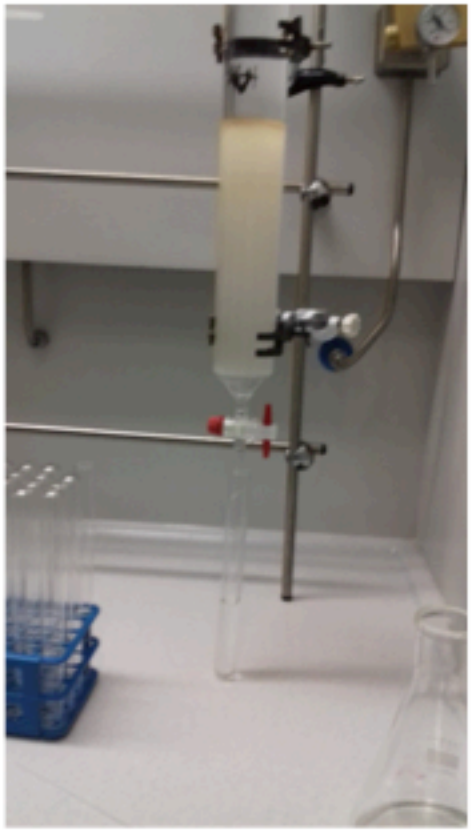








Ciano derivados como precursores de polímeros híper porosos




Lucía Mira Bayón
